

Marine Biology Experience (MBT)

Join us in an exciting marine adventure!

During our cruise you will enjoy an educational visit to the nearby fish farm, swimming and snorkeling around fish and amazingly blue waters!

Learn from an expert!

Our trip starts at 10:00, from the KAMIROS SKALA harbor heading to Makri Island.

How much do you really know about Aegean's marine life?

Our expert marine biologist will guide you through all the exciting details of the Aegean Sea, its fauna and flora! You will learn about how an exemplary fish farm works, the ecosystem developing around it and learn about the unique benefits of aquaculture, its nutritious value to people and its contribution to protecting our seas. We will have a 90% chance of being visited by dolphins.

Visit a fish farm

At 11:00 we will arrive at Stroggili, and LAMAR fish farm, located inside a protected area; it is an exclusive treat for those who love the sea and marine life. Operating at the highest of standards, the fish farm contributes to the preservation and flourishing of a rich aquatic environment around the Stroggili island, where a rich ecosystem prospers.

Put on your goggles and start snorkeling around and INSIDE the fish farm cages.

Have you ever swum with thousands of fish?

At 12:30 we return on board to have nice snacks (fresh fruits and pastry) and refreshing beverages.

At 13:00' we start our trip back to Kamiros Skala, we again pass through Makri Island, meeting dolphins again and enjoying the rejuvenating sea breeze.

We arrive back at Kamiros Skala, at around 13:30
