Another autumn begins with the greatest boat shows, highlighting the dynamics of the global yachting market. Thanks to the 3rd Olympic Yacht Show, Greece now boasts its internationally acclaimed premium in-water show, setting a new record for participation and securing its place in the international calendar of leading yacht events.

Organized for the third consecutive year by **ONDECK EVENTS**, the **Olympic Yacht Show** will take place from October 19th to 22nd at the modern and renovated facilities of Olympic Marine in Lavrio. This event has already earned the status of an institution, serving as a crucial communication platform for the Greek shipbuilding market. According to Gerasimos Gerolimatos, head of the Organizing Committee, "Greek boats must have their own showcase in their homeland, attracting foreign buyers and providing a compelling reason to attend the exhibition".

This year's event is expected to be even bigger and more diverse, featuring a wider range of boat categories, European and world premieres, as well as various activities and events organized by participants to inform and entertain visitors.

Once again, the exhibition will showcase renowned Greek shipyards with international visibility, including Technohull, Rafnar Hellas, Ribco, Seafighter, Olympic Ribs, Onda Tenders, and more. These shipyards will take center stage, presenting both their latest models and their best-selling creations.

Furthermore, the land section of the exhibition has been revamped to be larger and more diverse, hosting leading companies from around the world known for their expertise in equipment, technology, and overall boat support services.
