

PRESS RELEASE

AS 28 GLX

The AS 28 GLX (4 beds) is part of the Gran Large project of the AS Marine line, born three years ago with the sister AS 28 GL (two beds). The boat has a sober but impressive design; a clean and linear style, winning characteristics that brought immediate success to the boat, prompting the Eolomarine group to create new models of the same line, which triumphed at the Genoa Boat Show in 2021 and 2022, and have requests for numerous promotional events in 2023. The Eolomarine group is a joint venture born in 2013, between the historic "Eolo" boats, at the forefront of the Italian and European nautical market since 1971 and the "AS Marine Italia" shipyard, present in Italy and Europe for several years.

PRESS RELEASE

EOLO NOVE

Eolo Nove was born from the idea of the technical-commercial team of the Eolomarine Group to be able to follow up on the successes achieved with the Eolo 830 day. In fact, many loyal customers have wanted a bigger, wider, more spacious, modern boat that can satisfy their ever more demanding requests. The engineering of this boat was designed by an external studio precisely to try to keep up with the times, in terms of accessories, materials and home automation used as well as to have more innovative solutions, also to make it easier to use. Eolo Nove was finally able to forcefully enter that market which until now only belonged to the most famous brands. Customers who manage to have it will improve the way of experiencing the sea.
